

CPPE has many learning programmes available to help you to assess your compliance with Healthy Living Pharmacy Level 1. In this document, we outline these learning programmes. Click on the titles in bold to take you to the relevant page on the CPPE website.

### Quality criteria

The quality criteria outline the requirements to achieve Healthy Living Pharmacy (HLP) Level 1 status, including the behaviours, activities and physical environment for which you must be able to provide evidence. The criteria are detailed in a number of different sections and embed the Royal Pharmaceutical Society *Professional standards for public health practice for pharmacy*.

### Public health needs

The *Public health needs* section requires all pharmacy staff to have an awareness of the local public health and pharmaceutical landscape. The following CPPE learning programmes can support you and your teams with this section:

- [\*\*Introduction to public health e-course\*\*](#)

This short, self-directed online course will help you develop the knowledge and skills needed to integrate public health into your pharmacy practice. A certificate of course completion is suggested as evidence that you meet the *Public health needs* and *Health and wellbeing ethos* clusters of the HLP Level 1 quality criteria.

### Team leadership

The *Team leadership* section requires that an individual from the pharmacy team has undergone leadership training that maps to certain dimensions of the NHS Leadership Academy's Healthcare Leadership Model. The following CPPE learning programme helps you to meet this requirement:

- [\*\*Leadership for Healthy Living Pharmacy e-course\*\*](#)

This short, self-directed online course covers the leadership requirements of the self-assessment framework for HLP Level 1 quality criteria.

- CPPE also has a number of [\*\*guides\*\*](#) available to complement the face-to-face and online learning on leadership.

These include:

- *Being influential*
- *Customer service*
- *Delegating*
- *Effective change*
- *Managing people*
- *Managing teams.*

# Resources to support Level 1 Healthy Living Pharmacy

## Communication

The *Communication* section requires that the pharmacy team is friendly, welcoming and respects people's values and beliefs. CPPE has developed a set of [resources to support pharmacy team members](#) to develop their consultation and communication skills, including how to approach people to discuss difficult or sensitive public health issues.

Visit the [Consultation Skills for Pharmacy Practice website](#) for full information on how CPPE can support you and your team to meet the national practice standards for consultation skills.

## Part 1

Part 1 of the framework relates to key requirements that the pharmacy must have in place before HLP Level 1 status can be granted. This includes the requirement for the pharmacist or other team member to have undertaken leadership development to motivate and engage the pharmacy team in the HLP concept, as well as the provision of the medicines use review (MUR) service, the new medicine service (NMS) and the influenza vaccination service in the previous year and participation in health promoting conversations.

## New medicine service

The following learning programmes can support you in the provision of NMS:

- [New medicine service e-learning](#) – this programme includes a video wall of example consultations.
- [New medicine service – getting it right guide](#)
- [Champions of the new medicine service: making a difference podcast](#)
- [New medicine service: antihypertensives – distance learning](#)
- [New medicine service – asthma and COPD distance learning](#)
- [Transfer of care: supporting patients moving into and out of hospital e-learning](#)

## Medicines use reviews

The following learning programmes can support you in the provision of MURs until the service is decommissioned in 2021:

- [High-risk medicines and MURs distance learning](#)
- [MURs: preparing to become accredited guide](#)

## NHS community pharmacy seasonal influenza vaccination advanced service

The following learning programme can help you to provide proof of your competence to provide the seasonal influenza service:

- [Influenza e-learning](#)
- The [Declaration of Competence \(DoC\) system](#) has been developed to support you in assuring commissioners that you are service-ready and have the appropriate knowledge, skills and behaviours to deliver high-quality, consistent services. You can learn more and work through the DoC for vaccination services by clicking the link above.

## Participation in health-promoting conversations

As well as a number of learning programmes on consultation and communication skills, our online learning environment, [theLearningpharmacy.com](http://theLearningpharmacy.com), provides fun and interactive learning activities for the whole community pharmacy team.

Current topics include:

- *Sexual health*
- *Smoking*
- *Substance misuse*
- *Supporting carers*
- *Type 2 diabetes*
- *COPD*
- *Dementia.*
